

How to Make Hedley's Crib Cards

- 1/ Print the pages on A4 paper and cut along guide lines.
- 2/ Cut out the corner squares. This will ensure a waterproof seal.
- 3/ Laminate using readily available (e.g. Staples) credit card size (90x60) pouches.
- 4/ Punch Holes as marked.
- 5/ Fix cards together with 'plastic binding screws'

Notes; Cards are numbered and cards with x/2 numbers are intended to back onto the relevant x/1 card, and can be laminated together.

The materials are mix of personal IP (acronyms, wording and design), public domain content and material that allows small scale reproduction.

To find the fixings, put 'plastic binding screw' into your favorite web search engine and you should get lots of options. Here is a photo to show some examples...

Disclaimer

Paddling and paddle sport coaching can be dangerous activities. If you decide to use these cards, the risk assessment, decisions and actions are yours alone. I take no responsibility for any loss or injury resulting from ideas expressed on these cards.
